# KB Datasaver PRO: Backup and Recovery Solution
## *for Business Servers*

KB DatasaverPRO is an advanced, yet simple and affordable online backup and recovery solution offering for business servers. This solution comes equipped with all necessary features, tools and controls to offer mission critical protection for business servers for accidental data deletion, catastrophic data loss, archiving and regulatory compliance.

*Simple, intuitive and powerful user interface with backup scheduler*

## KB DatasaverPRO: Your "Ounce of Prevention"

KB DatasaverPRO delivers reliable, cost effective, high performance and secure online backup and recovery services for entrepreneurs, small businesses or large enterprise computer servers and applications. KB DatasaverPRO is built on highly reliable hardware with proven algorithms and innovative patented software to create a game-changing solution set that can scale to meet today's most demanding business IT data protection requirements.
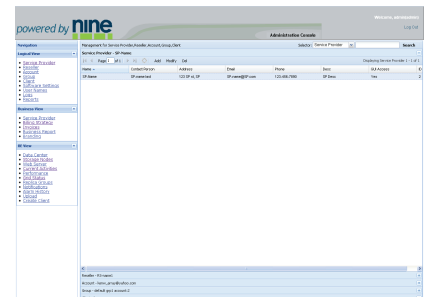

## Backup and Recovery Solutions for Business Servers

KB DatasaverPRO fulfills the online backup and recovery promises that other services or technologies have not been able to deliver to business servers. The Powered By Nine™ technology benefits include:

- Manual or scheduled server backups
- Initial seeded backups shipped to the data center
- Lightning-fast restore
- Improved data efficiency techniques and compression to minimize data size, number of files and bandwidth impact
- Military-grade encryption
- Central web based client administrative console to configure server backup options, set bandwidth throttling, alerts and reports
- Seamless integration with KB DatasaverONE individual computer service offering for comprehensive turnkey data protection suite for all Windows-based computers in any size business
- Designed to scale for growing businesses

*K B Web Design's admin portal is intuitive and allows for superior online backup management*

## Central Management Portal Features

The K B Web Designmanagement portal offers a substantial feature set for IT managers to implement across their company's business servers. The portal includes web-based restore, lock-down, account management and billing for a comprehensive online backup and recovery solution. K B Web Design's management portal is easy for outsourced IT departments to manage.
